# Adactin Hotel App

Adactin has a proven experience of testing applications and thus innovation becomes a vital part of the company. Adactin, using the knowledge and experience, created the Adactin Hotel App. The Hotel App website was launched to create a free platform for both beginner and experienced testers to practice, learn and hone their testing skills.

The Adactin Hotel website is now been used by testers in the industry, university students studying IT and organisations for ramping up their teams through training programs. There's a stack of supporting documentation available in order to use this app. This platform has given a framework for many skilled personnel to author books on Test Automation.

Adactin has expanded the reach and use of this platform by creating the **Adactin Hotel App, which is now available on iOS and Android**. This app gives users the ability to extend their knowledge to the world of mobile testing.

# Adactin Group – Introduction

Adactin is a premium Australian owned consulting company founded in 2011. Adactin offers a broad range of ICT services in the areas of Software Design, Development, Testing, Integration, and an extensive range of IT Training.

Adactin works in industries in different domains such as Banking & Finance, Insurance, Federal & State Government, Healthcare, Education, Energy & Utilities and many more.

Adactin is a fast growing, award winning (CRN Fast 50 2016, 17, 18, 19 | Deloitte Tech Fast50 2017, 18, 19 ) Australian IT services company with 180+ staff nationally.

***STEP: 1***

# Signing Up To the Hotel App

~~~~~  
ADACTIN HOTEL APP

© 2013 - [Adactin.com](http://Adactin.com). All Rights Reserved. Adactin Group Pty. Ltd.

Booking fixes.

Next

## Share Feedback

Take a screenshot and send to the developer directly from this beta app.

Start Testing

[Learn More](#)

# Preview Information

Next will be the Share Feedback page. This highlights the fact that you can send screenshots to the developer directly for feedback and issues.

You can proceed directly to the login screen by clicking the **Start Testing** button.

If you would like to get more information about TestFlight, click the learn More button.

*STEP: 4*

# Using the Adactin Hotel App

~~~~~  
ADACTIN HOTEL APP

# Login

Once you have signed up, please enter your login information to start using the application.

The image shows a mobile application login screen for Adactin. At the top, there is a status bar with icons for a clock, Wi-Fi, and battery, along with the time 1:17. Below this is the Adactin logo, which consists of a blue circular icon with three curved lines and the text "Adactin Driving Innovation". The main content area contains two input fields: "Username" and "Password". Both fields have a red arrow pointing to them from the right. Below the input fields is a large blue button labeled "Login". At the bottom of the form area, there are two links: "Sign Up" and "Forgot password". The footer contains copyright information: "© Copyright 2020, All Rights Reserved. AdactIn Group Pty. Ltd. For any further information or queries please [click here.](#)". The bottom of the screen features a black navigation bar with three white icons: a back arrow, a circle, and a square.

# Begin Search

Once login in and on the home page. You will see your username at the top, followed by the search options as your scroll down.

# Location

Choose from one of our preset locations to start your hotel search.

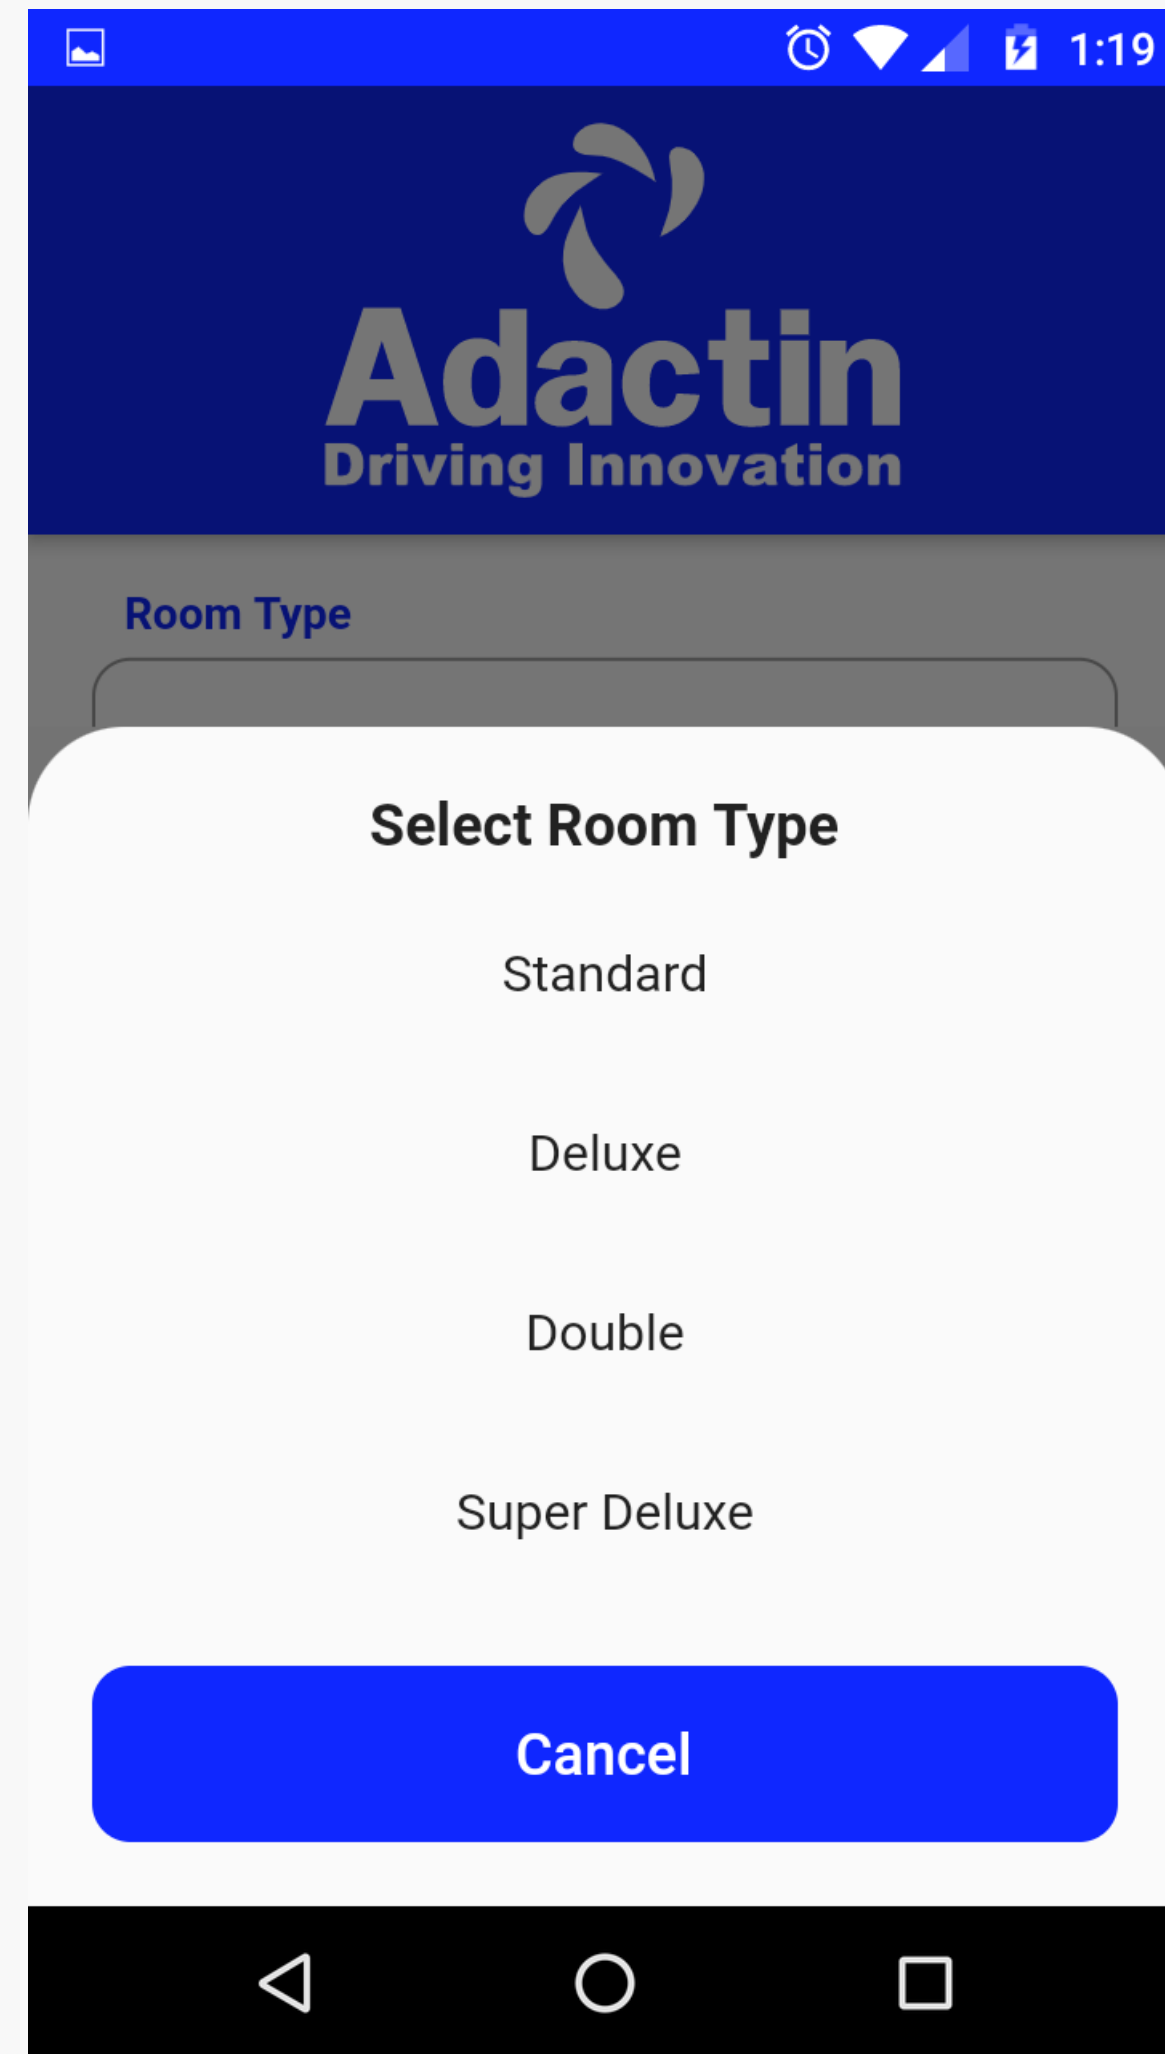

# Hotel Select

Once you have selected your location, move onto the hotels options were you will have the option to select the available hotels in that location.

# Room Type

After the hotel option, next you should choose the hotel room type. Click on the option and select one of the preset room types.

The screenshot shows a mobile application interface with a blue header bar at the top containing a camera icon, status icons (alarm, Wi-Fi, signal, battery), and the time 1:19. Below the header, the title "Select Number of Rooms" is displayed. A list of options is shown, each with a radio button and text: "1 - One", "2 - Two", "3 - Three", "4 - Four", "5 - Five", "6 - Six", "7 - Seven", "8 - Eight", and "9 - Nine". At the bottom of the list is a blue button labeled "Cancel". The very bottom of the screen shows the standard Android navigation bar with back, home, and recent apps icons.

9 - Nine

Cancel

# Amount of Rooms

Next you will be selecting the amount of rooms you wish to have in your suit.

# Check-in Date

Select the date you would wish to check in to the hotel.

Select a check-out date to complete the time period.

*Please note you cannot pick same day check-out or a period longer than 40 days.*

The image shows a mobile application interface for Adactin. At the top, there is a blue header with the Adactin logo and the text "Driving Innovation". Below the header, there is a grey input field for the check-in date, which currently displays "04/05/2020". Below this field, there is a white modal dialog box with a "Cancel" button on the left and a "Done" button on the right. The modal contains a date picker with three columns: the first column shows days from 04 to 07, the second column shows days from 05 to 08, and the third column shows years from 2020 to 2023. The date "04/05/2020" is currently selected, with "04" in the first column, "05" in the second column, and "2020" in the third column. The bottom of the screen shows the Android navigation bar with back, home, and recent apps buttons.

The screenshot shows a mobile app interface with a dark blue header containing the Adactin logo and the text 'Driving Innovation'. Below the header, a date '08/08/2020' is visible. A dialog box titled 'Select Adults per Room' is displayed, featuring four radio button options: '1 - One', '2 - Two', '3 - Three', and '4 - Four'. A blue 'Cancel' button is located at the bottom of the dialog box. The Android navigation bar is visible at the very bottom.
